

June 2001

Dear Bee Keepers:

Sorry this has taken so long to get out. The last month or so has been fairly active with request for help and parts. Thank you to everyone who has helped out. I've had several people find what they needed through your efforts. I didn't know just how plentiful parts, knowledge and help would be. But many responses came in for those who asked.

The First Annual Northwest Seabee Fly-In on Orcas Island...

That morning it looked as though there could be 5 or more, all in one location.

So,

Has any one done the dock at Chandler's Landing on Lake Union?

Does any one know of any dock that works on lake union?

Where is the best sandy beach?

Best boat ramp with a restaurant?

ANY boat ramp with a restaurant?

Any Docks that work with a Seabee?

...feel free to reply or make a submission, I will be glad to post it for others!

Rotors Restaurant at Tacoma Narrows airport is to reopen in July! Hopefully it will be soon. It's a great spot to meet and watch the sun set. I'll keep you posted.

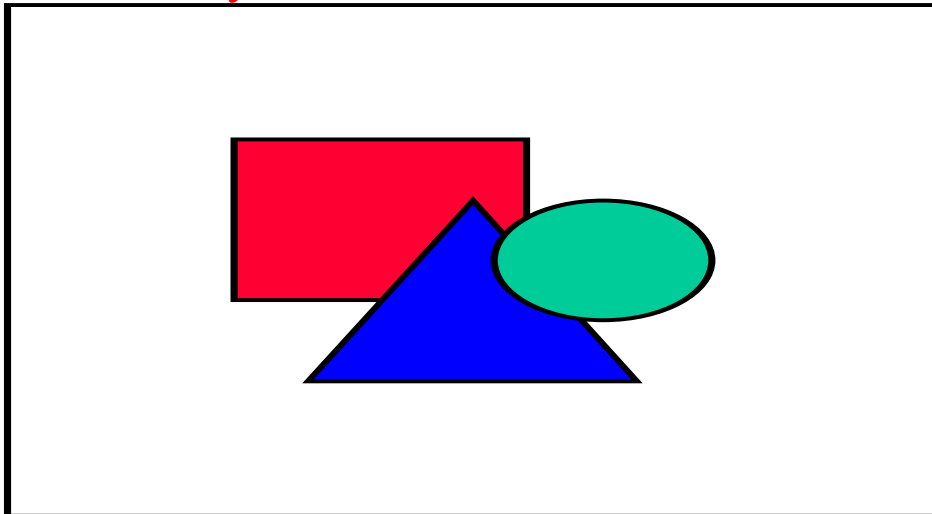

July 11-17 Arlington - Several people mentioned they will be there. I just don't remember who they were. Please respond and I will forward the information to everyone. I'd love to get a bunch in one location! Awe come on, it'll be fun!

Lake Chelan, date to be set. Mike Stevens lives there and suggested a gathering. He has lots of contacts in the area and knows the lake very well.

September 8 Lake Cushman

...lets go play, wanna meet some where ... email or call me 360 769-2311
