

March 2002 Newsletter

The old Bee hive is starting to buzz ...

I will be including my calendar of events each month and as an attachment in case you want to print it separately. At this point it's only my calendar. These are some of the things I have become aware of and would like to attend. You are welcome to add things to it if you want others to join you, and I'd love to hear from anyone who plans on attending any events. I'd love to be able to say ... "we've got 5 Seabees departing PAE for Concrete at 0800..." or..." 4 seabees are gathering at Blake island on Saturday for a picnic..." just hit reply, or even give me a call. 360-769-2311

This actually worked recently, we had 3 Seabees in formation over Oak Harbor and even did a 3 ship splash and dash. One broke off and the other two went to Lake Goodwill. That was fun. This is Rich at a comfortable distance...

Tom and I on the step at Lake Goodwill...

News

The Ground Hogs Dinner was fun. Many of us would like to see it moved so it's not so expensive. And many more people would like to have had more notice! Bob McKenney did say they were going to try and get more news letters out. He is looking for pictures of Members seaplanes to include and any articles or stories you may have.

The web site may soon be combined with the B.C. Floatplane and Columbia Seaplane Assoc. to help spur some activity within the group. They had put a forum page on the site, so anyone could ask questions and respond, but it hasn't had any hits since October.

I received my Seabee CD from Steve Mestler, this is a great tool! Print the page you need and don't worry about getting it greasssy. Just throw it away. What a concept. See planes and parts below for details...

Tom has been referring to his engine as the "Frankenstien Time Bomb!" He's pulled it and sent it to Richie Brumm. We are excited to see how much difference it's going to make. Of course Tom says, "I just want the darn thing to be reliable!"

Remember Byron Miller from the last letter, he's the one that's putting Helio Courier wings on a Bee He has made the magnanimous offer of free use of his cabin in Alaska. His stipulations though limit you to a week and you have to provide him a picture of your Seabee at his Dock! Sorry Float Folks! Picture your Seabee here...

And he says this is the average pike ...

The Cabin is not far from Anchorage, so give him a call, home is 503-873-2857, I want pictures too!

Gatherings and Ideas

Your ideas needed here ... (now it sounds like I'm begging) What would you like to do? Where would you like to go? And, any suggestions for the newsletter are always welcomed too. Let me know what you think ... Any dates you may know of, I'd be happy to post. Any one want to go visit Camp Seabee?

Brewster's Calendar of events for 2002 It's only mine ... these are some of the things I'd like to go and do this year, and I'd love to have the company of other aircraft, especially Seabees ... that's why I started this newsletter. So, let's buzz down to some of these events. Or let me know what interest you, I'll put it on the list, and maybe we can do some flying together ... I'll continue to up date this list as things come up, so keep checking ...

Old (but good) News

Another angle on the interesting nose job of N6328K!! (almost looks like an airplane)

According to Register, N6328K is currently owned by 'Seabee IV', Does anyone know the people behind 'Seabee IV' or if the aircraft is still in Sacramento, CA?

The IRSOC ... have you checked out the International Republic Seabee Owners Club **and Joined?** Go ahead, it's free! It's also the best source of information and experts on the old beast that you will find. They have free classifieds for members too jhooper3@mindspring.com
<http://www.mindspring.com/~jhooper3>>

James Poel's database and clearing house for all Seabee 337 forms and field approvals. This would be a free service to all members. For the time being all forms would have to be faxed to Jim: May to November (315) 531-9168; November to May (386) 767-0706.

"Frankenstein" parts ... Rich Brumm in Northport, N.Y. is one of the experts. If you ever heard of a problem the Franklin's have, he has the fix for it! richkarenbrumm@prodigy.net Phone: 631-757-2216 Office: 516-885-5879

Planes and Parts (new listings)

I found Tom Bennedict in Vancouver, WA. with some Seabee stuff ... 360-896-6494 ... 2 engine cowls with baffles, nose bowl, cabin windows, 3 tail wheels, tail shock strut rubbers, 3 starter and generator fan sets, 3 engine blocks, 18 cylinders, 2 carbs, 1 heat box for carb, 4 starters 2 generators, All items for assembly as push rods & Housing tubes, rocker arms, valve covers, Seals, 4 motor mounts, Valves and springs, 2 fuel pumps, 3 oil pumps, 4 oil coolers(1 small, 3 large), 3 oil pans, 8 pistons, 4 magnetos, 100 new sparkplugs, 2 intake manifolds, 2 lower cooling shrouds, 1 set engine baffles, 2 set battery ignition, 3 relining seat brackets. He also has a bunch of Cessna and Piper stuff ...

There was also a Seabee in Trade a Plane you might find interesting. #126, wing extensions, new bottom, but needs to have wings, tail and prop reinstalled. Currently trailerable. \$24,000 877-234-0635 or 702-453-2201

Planes and Parts(previous listings) please update!

For those of you needing a little larger ship, the Jimmy Buffett Margaritaville/Hemisphere Dancer flagship is for sale. The beautiful Grumman Albatross, as you would expect, is a meticulously maintained aircraft and is on the market. E-mail Henry at Amphibs1@aol.com if you need further information. His request is ... "for serious inquires only. We are not here to give rides and all info will be forwarded to Jimmy's aircraft manager." If you are not familiar with Henry Ruzakowski, he is quite active with his projects, and as an active member of the IRSOC is always a great help to the Seabee community. He currently has a couple of Seabee projects being put together and will have at least one and possibly two Widgeons rebuilt in the following year.

There is another Albatross for sale at TIW. It's a long wing and supposedly the lowest time SU-16 in the country. I think the price is \$375,000, so don't quote me on that, but I can put you in touch. Bruce

The Seabee CD ... Steve Mestler, N9042N (The Marty B) has produced a CD with all the Seabee Service Bulletins, Flight Manual, Parts Manuals, etc.. He states ... "Everyone I have sold this CD to has found it most useful. I have re-typed all of the Service Bulletins and reformatted the parts manuals for easier reading. No special software is required. All files are in Adobe Acrobat format and I include a reader with the CD. Once the Acrobat Reader is installed, just put the CD in the computer and it starts automatically! The charge is \$25 which includes shipping." Contact Steve at smestler@bellsouth.net *I'd love to hear from anyone who has used the CD, sounds like a great reference.*

Kathy Anderson from XP Mods. writes ... "We've had a Sea Bee here for a long time and the owner wants us to find the remaining part, used. It's a reversing control block with spool, for a Hartzel reversing (3-bladed) propeller. The part number of the part I need is A4117. Waaaaay too expensive to buy new. Can you help??" xpmod@tqi.net
