Bulletin

FROM PERSONAL PLANE DIVISION OF REPUBLIC AVIATION CORPORATION

DISTRIBUTOR BULLETIN NO.39

April 11, 1947

THE GREAT ROUND-UP!

Please accept this as a very personal invitation to attend Republic's First Annual Distributor's Convention to be held at the famous Westchester Country Club in Rye, New York, on Monday and Tuesday, May 5th and 6th.

The two day program will bring together outstanding personalities in the aviation industry representing 41 American, 7 Canadian, and 28 foreign distributors in the great Republic family.

While primarily concerned with a review of all we've accomplished together up to this time and planning where we go together from here, the convention will cement friendships and give a wonderful opportunity for the exchange of experiences and ideas.

Fifty double rooms have been reserved of which some will be available on Sunday afternoon, May 4th, for those who wish to arrive early. Our agreement with the Club calls for our checking out by Wednesday noon but here again some few may stay longer if desired.

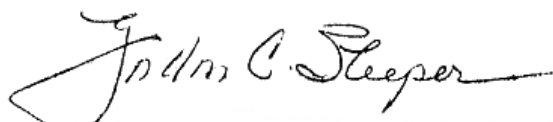

Please tell me as soon as possible whom to expect from your company, when and how you will arrive and whether or not you want a Seabee to be ready for you to fly home. Be sure to tell me if there will be ladies in your party.

The Westchester Country Club is a short taxi ride from Rye railroad station. It is about two miles from the Westchester County Airport (Class 4) where our good friends in North American Airport Corporation will receive you if you fly in and will provide transportation to the Club.

Present plans call for all of Monday's program to be at the Club starting with the first meeting at 10:30 A.M.

Tuesday we are at the Club until after lunch when transportation will be provided for a visit to Republic. There many will take delivery of Seabees, flying back to the Club for the wind-up evening together. Wednesday most will check out but in the morning the golf addicts will have their chance at two of the finest courses in the East. Any having unfinished business at the plant will be welcomed at Farmingdale.

More details in subsequent bulletins.
