

REPUBLIC AVIATION CORPORATION
FARMINGDALE, LONG ISLAND, NEW YORK
SERVICE DEPARTMENT

October 23, 1946

DISTRIBUTORS BULLETIN No. 10

NEED A SPARE?

In order to facilitate prompt handling of Seabee spare parts, there are certain items of information concerning your organization which the Service Department needs. Accordingly we would like you to fill out the attached letter and return it to us at your earliest opportunity.

So that we may give you the service you want, we suggest that you address all requests for spares, whether by telephone, wire or letter, directly to: J.A. Weglage, Service Spares Supervisor.

As we all know, these are critical times considering the extent of shortages. Shortages exist at Republic as they do in all industries. Briefly our bank of available spare parts is limited. Therefore we again request that for the present you limit your orders to emergency requirements only.
