DISTRIBUTORS BULLETIN No. 34

CHANGE IN CABIN FLOOR MATS

Starting at approximately Ship 500, a brown cork Airofloor made by Armstrong Cork Co., Lancaster, Pa., has replaced the green linoleum floor covering. All future ships will be equipped with this better type brown floor mat. No green linoleum will be stocked for replacement since it is no longer manufactured by the Vendor and the new type is a much better floor covering. Therefore, in ordering replacement parts for the green linoleum, it will be necessary to order all items to completely replace the front, rear, or both front and rear mats to match colors. The following is a list of items for the front and rear floor mats and the list price of each.
