

Questions for the Seabee Community

1. Please state the name you'd like used in the book:
2. What first interested you in aviation?
3. What was your first experience of flying boats?
4. What was your first experience of the Seabee? (If different than 3)
5. What attracted you to this particular aircraft?
6. Are there any aspects of the aircraft's history you feel are particularly important?
7. How would you best describe the Seabee to someone who has never experienced the aircraft?
8. What events led to you owning/operating a Seabee?
9. What details about Seabees owned/operated by you are you willing to share?
10. What would you describe as the aircraft's best attributes?
11. What limitations does it have, and how do you address them?
12. Are there any experiences with the Seabee that "stand out" to you?
13. What would you say to a pilot/enthusiast who wanted to obtain a Seabee?
14. If you were to describe the Seabee in one word, what would that word be, and why?
15. What drew you into the Seabee community?
- ~~16. What led to your creating a website dedicated to the Seabee and why?~~
17. What are the best aspects of the Seabee community?
18. Do any particular elements of the community stand out to you?
19. What is your favorite part about being involved in the Seabee community?
20. What do you think the greatest achievement of the Seabee is? (Regarding either a specific aircraft or speaking generally)
21. What do you feel the future holds for the Seabee? (Are there any issues the type is facing into the future)
22. If you were to try to interest someone in the Seabee (who was just coming into aviation), how would you do it?

Thank you for being willing to answer these – the purpose of my books is always to try to draw in people who aren't already part of the community for various aircraft, and I think your answers will help me a lot in this regard!
