

George - Compliments of the Seabee Club

Aircraft Production List : I

Republic

RC-3

Seabee

AIR BRITAIN archive #3
1981

Full production commenced in 1946 and 1060 examples were built before the line closed in October 1947. During this period the registration prefix NC would have been in use in the USA but to save space we have adopted N as standard throughout.

The sole German example D-ELPO c/n 592 at Egelsbach 11.8.69. (D.Partington)

** c/n 158 N87589 is a United Consultants Corp'n
 UC-1 conversion with two Lycoming IO-360s. The
 full c/n is quoted as UC-1R158. Later UC-1 twin
 conversions used a separate c/n sequence, of
 which details will follow in the next Archive.

G-AJVO c/n 645 lasted longest of the UK-regis-
 tered examples although it stayed for only two
 years. (via M.Fillmore)
